

Download Elna Serger Threading Guide

Janome MyLock 634D Overlock Serger. The Janome MyLock 634D with electronic control is the most advanced MyLock serger. It has 2 needles and 2, 3 or 4 thread overlock stitching. The Janome Mylock 634D is all about making serging fun, productive, and stress free. Everything from the tension to the threading is designed to make your serging experience user-friendly and efficient. 1940: Elna #1 - the first portable, free-arm sewing machine with electronic motor and built-in light, The carrying case also served as a sewing table. An overlock is a kind of stitch that sews over the edge of one or two pieces of cloth for edging, hemming, or seaming. Usually an overlock sewing machine will cut the edges of the cloth as they are fed through (such machines being called "sergers" in North America), though some are made without cutters. The inclusion of automated cutters allows overlock machines to create finished seams easily ...
