

Download Genetic And Genomic Resources Of Grain Legume Improvement

The full scientific program and poster list of ICLGG 2019 is now available. Download the PDF here.

DOWNLOAD FULL SCIENTIFIC PROGRAMThis theme focuses on the improvement of ICRISAT's mandate crops using integrated breeding approaches. It makes extensive use of the global germplasm collections available in the ICRISAT Genebank and develops diverse breeding materials, keeping in mind traits preferred by farmers, industries and consumers, and those required for the adaptation of the crop in different geographies, changing ...Cicer is a genus of the legume family, Fabaceae, and the only genus found in tribe Cicereae.It is included within the IRLC, and its native distribution is across the Middle East and Asia.Its best-known and only domesticated member is *Cicer arietinum*, the chickpea.Organic Plus. Organic Plus is a 4-year EC Horizon 2020-funded project led by the centre for Agroecology, Water and Resilience (CAWR) at Coventry University which aims to minimise the use of contentious inputs in certified organic agriculture in Europe.
