

Download Guided Discovery Approach

1 Definitions. Guided discovery learning is a constructivist instructional design model that combines principles from discovery learning and sometimes radical constructivism with principles from cognitivist instructional design theory. “ Students discover knowledge without guidance, developing their own understanding. The role of instruction is merely to provide a suitable environment, which ...History. Constructivist approach teaching methods are based on constructivist learning theory. Along with John Dewey, Jean Piaget researched childhood development and education. Both Dewey and Piaget were very influential in the development of informal education.
