

Download Mirror Touch A Memoir Of Synesthesia And The Secret Life Of The Brain

Dr. Joel Salinas is a Harvard brain doctor with extraordinary gifts that provide him unique access to his patients and enable him to experience life in a remarkable way. He has mirror-touch synesthesia, a neurological trait that allows him to feel others' emotions and physical sensations. Susceptible to the pain and discomfort of his patients—Salinas uses his heightened empathic ability ... One manifestation of his synesthesia is called mirror-touch synesthesia (also known as mirror touch), where he physically feels what the people around him physically feel. If you were to touch your cheek, he would simultaneously, involuntarily, and vividly experience the same sensation of being touched on his own cheek.
