

Download Research Report Guidelines

Research Reporting Guidelines and Initiatives: By Organization. Designed as a supplement to CONSORT, which has led to improved reporting of trial design and conduct in general. Current plans are to revise STRICTA in collaboration with the CONSORT Group, such that STRICTA becomes an "official" extension to CONSORT. Organization of the Research Report. Most scientific research reports, irrespective of the field, parallel the method of scientific reasoning. That is: the problem is defined, a hypothesis is created, experiments are devised to test the hypothesis, experiments are conducted, and conclusions are drawn. GUIDELINES FOR RESEARCH REPORT Each applicant must upload a Research Report through the online application system. This is your opportunity to share your research project with the Regeneron STS judges and evaluators. Please read the following guidelines closely. 1. The Research Report must be 20 pages or less. GUIDELINES FOR PREPARING A RESEARCH REPORT. Research experience is as close to a professional problem-solving activity as anything in the curriculum. It provides exposure to research methodology and an opportunity to work closely with a faculty advisor.
