

Download Side Effects A Nurses Journey Through Secondary Traumatic Stress

Western Schools offers California continuing education for nurses, quality and affordable CE courses for CEU credits to maintain your professional license in California. What happens to the brain at the point of injury? Traumatic brain injury (TBI) refers to damage or destruction of brain tissue due to a blow to the head, resulting from an assault, a car crash, a gunshot wound, a fall, or the like. Major trauma is any injury that has the potential to cause prolonged disability or death. There are many causes of major trauma, blunt and penetrating, including falls, motor vehicle collisions, stabbing wounds, and gunshot wounds. Depending on the severity of injury, quickness of management and transportation to an appropriate medical facility (called a trauma center) may be necessary to ...
